Summary

Computer Science Engineering undergraduate with a strong foundation in data structures and algorithms. Skilled in problem-solving and building efficient, scalable solutions. Passionate about web development and developing real-world applications.

Education

Bachelor of Engineering (B.E.) in Computer Science and Engineering

2023-2027

Chandigarh University

- CGPA: 8.50
- **Coursework:** Data Structures

Projects

Blog Application

Tech Stack: Spring Boot, React.js

- Developed a full stack blog platform allowing users to create, read, update, and delete posts.
- Added secure login and signup functionality with password encryption.
- Designed RESTful APIs for blog management and user interactions. Built Like and Comment features enabling engagement with blog posts.

Employee Leave Management System

Tech Stack: Spring Boot, Java

- Developed a backend system for leave request submission, approval workflows, and tracking . Designed and implemented RESTful APIs
- Implemented CRUD operations for employee records and leave requests with proper validation
- Integrated SQL database connectivity and tested REST APIs using Postman for smooth backend functionality.
- Built and optimized relational database schema for efficient employee and leave data management

Technical skills

- **Languages:** Java
- **Core Subjects:** Data Structures & Algorithms, DBMS, OOPs
- **Web Development:** HTML, CSS, JavaScript, React JS, Spring Boot
- **Tools:** Git, GitHub, VS Code
- **Databases:** MySQL

Achievements

- Achieved online certification in Java Programming from Coursera, covering OOP, data structures
- Solved 450+ DSA problems on LeetCode/GeeksforGeeks and participated in coding contests, demonstrating strong understanding of data structures and algorithms
- Participated in CodeRelay Programming Event and CodeHunt Coding Competition

Interpersonal Skills

Problem Solving | Time Management | Team Collaboration
